Overview

Professional Beverage Dispensing Solution

This commercial beverage dispenser is engineered for high-performance service in restaurants, cafes, and hospitality environments. Featuring an 18L capacity with a robust refrigeration system, it ensures drinks are maintained at optimal serving temperatures. The durable stainless steel construction and food-grade polycarbonate bowl offer both longevity and hygiene, while the integrated stirring mechanism prevents settling for consistent drink quality.

Technical Specifications

Capacity	18 L
Cooling Technology	Stainless evaporator with built-in copper tube
Dispensing Mechanism	Pull-type valve
Mixing Method	Rotating stirring mechanism

Design & Build

Key Features

- Intelligent temperature control
- Mute design for quiet operation
- Removable drip tray for easy cleaning
- Transparent bowl with volume markings

Construction Materials

Stainless Steel, Food-grade Polycarbonate, Durable Plastic
