

Commercial Chest Freezer with Sliding Glass Lids

This chest freezer is designed for commercial or residential use. It features curved glass sliding lids for easy viewing and access to contents, along with temperature control settings.

Product Overview

Commercial Chest Freezer

This versatile chest freezer is designed for both commercial and residential applications, featuring curved sliding glass lids that provide excellent visibility and easy access to stored goods. It is an ideal solution for retailers needing to display frozen items like ice cream or other perishables effectively. Built with durability and convenience in mind, the unit includes integrated temperature control settings to ensure optimal storage conditions.
