

Commercial Cube Ice Maker

This high-capacity automatic cube ice making machine is designed for commercial use, providing a consistent supply of ice cubes. Its stainless steel construction ensures durability and hygiene.

Product Overview

High-Capacity Commercial Ice Production

This high-capacity automatic cube ice making machine is engineered for demanding commercial environments such as restaurants, hotels, and bars. Constructed with durable stainless steel, it ensures optimal hygiene and long-term reliability. The unit features an intuitive electronic control panel for seamless operation and monitoring, providing a consistent supply of ice cubes to meet high-volume needs.

Performance Metrics

Ice Storage Capacity

160 KG

Max Storage Capacity

Technical Specifications

Power Consumption

- 900W
- 1010W
- 1360W
- 1780W

Refrigerant Type

R404 • R22

Electrical Requirements

220V, 110V, 50Hz, 60Hz

Features

Material	Stainless Steel
Interface	Electronic Control Panel
