

# Commercial Dehumidifier with LCD Control

This commercial dehumidifier is moveable and easy to operate. It features an LCD controller and a continuous drainage pipe.

## ADDITIONAL IMAGES

## Overview

### High-Efficiency Commercial Dehumidification

This high-capacity commercial dehumidifier is engineered for effective moisture control in large spaces and basements. Featuring a rotary-style compressor and intelligent humidity control, it maintains optimal environments between 30% and 90% humidity. The unit includes advanced safety features like automatic water level detection, shut-off protection, and self-defrosting capabilities for reliable, long-term operation.

## Performance

Control Range	30% - 90%
Self-Defrosting Threshold	5 °C

## Design & Features

### Portability Features

- Movable wheels
- Durable handle

Water Tank Capacity	6 L
Drainage Options	Internal Tank, Continuous External Pipe

## Technical Specs

### Operational Metrics

<b>7 L</b> Shut-off Capacity	<b>3 min</b> Compressor Delay
---------------------------------	----------------------------------

### Advanced Features

Rotary Compressor • Activated Carbon Filter • Touch Controls • Auto Shut-off
