

Commercial Display Refrigerator with Adjustable Shelves

This commercial display refrigerator is designed for showcasing beverages and food products in retail environments. It features a glass door for easy viewing, adjustable shelves for flexible storage, and a temperature control system to maintain optimal cooling.

Overview

Professional Commercial Display Refrigeration

The TN60 is a high-performance commercial display refrigerator engineered for retail environments. Featuring a clear glass door for optimal product showcasing, this unit utilizes an energy-efficient compressor and a fan-assisted cooling system to ensure consistent temperature distribution. Its adjustable interior shelving and integrated LED lighting provide maximum flexibility and visibility, making it an ideal choice for businesses looking to enhance product presentation.
