

Commercial Display Refrigerator with Heating

This commercial refrigerator features adjustable shelves and internal LED lighting. It is designed to maintain temperatures between 2-8 degrees Celsius for cooling and 30-50 degrees Celsius for heating.

Product Overview

Dual-Function Commercial Display

This versatile commercial display unit offers both refrigeration (2–8°C) and heating (30–50°C) capabilities, making it ideal for supermarkets, convenience stores, and retail environments. Designed with a thick foam insulation layer and double-layer hollow glass doors, it ensures energy efficiency while minimizing condensation. The unit features adjustable shelving and vertical LED lighting to maximize product visibility and presentation.
