

# Commercial Ice Block Production Machine

This ice block machine is designed for efficient and reliable ice production. It is equipped with multiple molds for producing consistent ice blocks and a tray for convenient collection.

## Product Overview

### Commercial Ice Block Production Solution

This commercial ice block machine is engineered specifically for reliable operation in coastal and tropical climates. Featuring an integrated design, the system minimizes installation complexity by requiring only power and water source connections. With robust construction and advanced energy-saving technology, it offers stable performance and multiple protective functions to handle unstable power supply conditions.

## Technical Specifications

### Production Time Options

- 2 hours
- 3 hours
- 4 hours
- 8 hours
- 12 hours
- 24 hours

### Installation

Plug-and-play • Integrated design

### Ice Block Weight Range

2kg to 70kg

## Features

### Key Features

Energy economizer, Tropical climate optimized, Coastal environment ready, Multiple protective functions, Easy cleaning, Simple operation

## Logistics

### Packaging Method

Air bubble film inner layer with external wooden box protection

## Compliance

### Patent Status

ZL2006 2 0160341.6
