

# Commercial Ice Cream Display Freezer with Curved Glass Top

This ice cream display freezer is designed for commercial use in parlors and restaurants. It features a curved glass top for product visibility, stainless steel containers, and integrated lighting.

## Overview

### Professional Ice Cream Display Solution

This commercial ice cream display freezer is engineered for high-traffic environments like ice cream parlors, cafes, and restaurants. Featuring a sleek curved glass top, it offers optimal product visibility while ensuring your inventory remains at the perfect serving temperature. With a robust dual-compressor system and air-cooling technology, this unit provides reliable performance and consistent storage conditions for up to 12 pans of product.

## Technical Specifications

### Refrigerant

R404a

### Overall Dimensions

1275 x 938 x 1418 mm

### Power Rating

1700 W

### Operating Temperature

-18 to -22°C

### Cooling Method

Air cooling

## Capacity & Configuration

### Pan Capacity

**12 1/4 size**

Pans

## Construction & Safety

### Electrical Safety Specs

Parameter	Value
Earthing Resistance	63 mΩ
Leak Current	0.415 MA

### Glass Type

Tempered glass

### Insulation

Double density foam

## Features

### Door Type

Sliding, Curtain
