

Commercial Refrigeration Compressor

This hermetically sealed compressor is designed for commercial refrigeration applications. It features robust construction and efficient cooling performance for reliable operation.

Product Overview

High-Performance Commercial Refrigeration Compressor

This hermetically sealed compressor is engineered for demanding commercial refrigeration applications, offering robust construction and efficient cooling performance. Designed for durability and long service life, it ensures reliable operation across a variety of refrigeration systems. The unit is optimized for easy installation and maintenance, making it an ideal choice for professional refrigeration setups.

Performance Data

Cooling Capacity by Model

Model	Displacement (cc)	-10°C (W)	0°C (W)	+7.2°C (W)
5546E	90.2	4368	7839	11253
5553E	100.7	5306	9105	12922
5561E	112.5	6133	10593	14870
5568E	124.4	6967	11862	16676
5573E	134.8	7501	12632	17816

Technical Specifications

Application

Commercial Refrigeration • Air Conditioning

Compatible Refrigerant

R22

Oil Filling

1960 cc
