

Commercial Soda Dispenser

This commercial-grade beverage dispensing machine is designed for high-volume service. It features a digital display for precise control and monitoring, ensuring consistent drink quality.

Overview

High-Performance Carbonated Beverage Dispensing

This commercial-grade soda dispenser is engineered for high-volume service environments, offering reliable cooling performance and consistent drink quality. Featuring an intelligent electric pump system, the unit optimizes energy efficiency while maintaining precise temperature control. Constructed with high-quality 304 food-grade stainless steel, this machine ensures durability and hygiene, making it an ideal solution for businesses requiring a dependable, easy-to-install beverage dispensing system.

Technical Specifications

Cooling Performance

High Efficiency • Optimized Cooling

Material Construction

304 Food-grade stainless steel pipe

Control System

Electric pump control with digital temperature monitoring

Installation

Easy installation

Key Features

Key Benefits

- Energy-efficient electric pump operation
- Automatic water tank temperature detection
- Digital display for real-time monitoring
- Food-grade internal components
