Overview

High-Efficiency Commercial Soft Serve Solution

This commercial soft ice cream machine is engineered for high-volume production in demanding environments like hotels, restaurants, and professional kitchens. It features a robust stainless steel construction for maximum hygiene and durability, paired with a rapid cooling system that ensures consistent texture. The integrated digital control panel allows for precise management of temperature and consistency, making it an ideal choice for businesses requiring speed and reliability.

Performance

Performance Highlights

1 High

Cooling Efficiency

1 Fast

Service Speed

Technical Features

Cooling System

Rapid freezing technology with stable performance characteristics.

Electrical Customization

Adjustable Power, Adjustable Voltage, Adjustable Frequency

Design & Construction

Key Components

- Multi-lever dispensing mechanism
- Integrated cup holder
- Removable drip tray
- Drainage system for excess water
- Insulated storage bin

Exterior Material	Durable stainless steel
Control System	Digital control panel for temperature and consistency management

Maintenance

Hygiene & Maintenance

- Self-cleaning function
- Easy-to-clean stainless steel surfaces
- Overflow prevention drain

Applications

Ideal For

Hotels • Restaurants • Chain Stores • Cafes • Ice Cream Parlors

Installation

Installation Type	Freestanding
