Product Overview

High-Performance Commercial Soft Serve Solution

This commercial-grade soft ice cream machine is engineered for high-volume production in demanding environments such as hotels, restaurants, and chain stores. Featuring a robust stainless steel construction and a triple-nozzle dispensing system, it offers consistent performance and the flexibility to serve multiple flavors or combinations. The unit includes an intuitive digital control panel for precise consistency management and is designed with mobility in mind for versatile placement.

Technical Specifications

Build Material	Stainless Steel
Dispensing Heads	3
Mobility	Yes

Operational Features

Maintenance Requirements

- Regular cleaning of the slurry pump
- Ensure pump is installed correctly after cleaning
- Contact after-sales support if pump fails to operate

Customizable Parameters	Power, Voltage, Frequency
