Product Overview

High-Performance Commercial Solution

This robust soft ice cream machine is engineered for high-demand commercial environments, featuring a durable stainless steel construction for long-term reliability. With a triple-handle dispensing system, operators can efficiently serve multiple flavors to maximize productivity. The unit includes advanced digital controls and an integrated cooling system to ensure consistent product texture and quality.

Technical Specifications

Mixing Tank Features

- Dual compartments
- Central agitators
- Liquid inlet tubes
- Integrated drain fittings

Dispensing Mechanism	Triple-handle system for multiple flavor dispensing
Material	Stainless Steel

Operational Features

Maintenance Features

- Removable drip tray
- Easy-clean stainless steel surfaces

Mobility	Yes
Control System	Digital control panel for precise operation
