Product Overview

Professional Ice Production

This commercial-grade ice maker is engineered for high-volume environments, featuring a robust stainless steel construction that ensures durability and corrosion resistance. Designed for seamless operation, it utilizes an automatic ice-making system and a large condenser to maximize performance and reliability. It is an ideal solution for businesses requiring a consistent, high-quality ice supply, including restaurants, bars, hotels, and cafes.

Key Features

Operational Advantages

- Automatic ice-making system for hands-free operation
- High-capacity production design
- Large condenser for enhanced cooling performance
- Durable stainless steel exterior for hygiene and longevity
- Integrated ventilation for optimal airflow and reliability

Applications

Recommended Use Cases

Milk Tea Shops, Coffee Shops, Restaurants, Bars, Hotels, Convenience Stores

Technical Specifications

Build Material	Stainless Steel
Evaporator Design	Grid-style evaporator
