

Commercial Steam Ironing Table

This commercial steam ironing table is designed for professional garment care. It features a padded ironing surface, integrated sleeve ironing buck, and foot pedal control.

Overview

Professional Garment Care Solution

This commercial steam ironing table is engineered for high-volume garment care in demanding environments such as dry cleaners, laundries, and tailoring workshops. It features a robust, padded ironing surface designed for consistent results and includes an integrated sleeve ironing buck for precision work. Equipped with a convenient foot pedal control and an overhead suspension system, this unit optimizes workflow efficiency and reduces operator fatigue during extended use.

Key Features

Integrated Components

- Padded ironing surface
- Integrated sleeve ironing buck
- Foot pedal control system
- Overhead iron suspension system

Suitable Applications

Dry Cleaning, Laundry Services, Tailoring, Commercial Garment Care
