

Common Rail Fuel Injector for HINO J05ETG Engine

This is a common rail fuel injector designed for HINO J05ETG engines. It is also compatible with KOBELCO SK200-8 excavators.

Product Overview

High-Performance Common Rail Injector

This common rail fuel injector is engineered for precise fuel delivery in J05ETG engines. Designed to meet stringent performance standards, it ensures optimal combustion efficiency and engine power output. Proper installation, including the registration of the unique ID code with a handheld tester in the engine ECU, is essential to maintain smooth idle and prevent abnormal engine noise.

Technical Details

Installation Requirements

- ID code registration required
- Use handheld tester for ECU registration
- Refer to engine repair manual for procedure
- Improper registration may cause rough idling or abnormal noise

Part Identifiers

VH234101440A, 095000-6353

Compatibility

Cross-Reference Compatibility

Part Number	Application Type
095000-6980	CDI
095000-5001	CDI
095000-5014	CDI
095000-5342	CDI
095000-5471	CDI
095000-5501	CDI
095000-5510	CDI
095000-6300	CDI
095000-6363	CDI
294000-0039	HP3

Compatible Engine Models

J05ETG
