

Compact Audio Speakers with Smiling Face Design

These compact speakers are designed for audio output. They feature a smiling face design and a hinged base for versatile positioning.

Product Overview

Compact Audio Speakers with Smiling Face Design

These compact audio speakers feature a distinctive and playful smiling face design, making them a unique addition to any workstation or audio setup. The unit is designed for reliable audio output and incorporates a versatile hinged base, which allows for flexible positioning or mounting options. These speakers are built to combine functional sound performance with a cheerful, modern aesthetic.
