

Compact Beverage Display Freezer

This compact display freezer is designed for showcasing and chilling beverages. It features a distinctive design resembling an Australian Rules football, complete with stitch markings and an inflation point.

Overview

Compact Beverage Display Solution

The Compact Beverage Display Freezer is an efficient, compressor-cooled unit designed for optimal product visibility and reliable temperature control. With an adjustable temperature range of 0-10°C, it ensures beverages are kept at the perfect serving temperature. Its compact footprint and energy-efficient design make it an ideal choice for retail counters and small spaces where maximizing display impact is essential.
