

Compact Canister Vacuum Cleaner

This compact canister vacuum cleaner is designed for efficient cleaning of various surfaces. It features a durable construction, a powerful motor for strong suction, and a user-friendly design.

Product Overview

Compact Canister Vacuum Cleaner (CL-160)

The CL-160 is a high-efficiency canister vacuum cleaner engineered for versatile cleaning across multiple surface types. Built with durability in mind, it combines a powerful motor for superior suction with a user-friendly, bagless design for convenient maintenance. Its compact footprint ensures easy storage, while the integrated HEPA filtration system effectively captures allergens and dust, promoting a healthier environment.

Technical Specifications

Voltage	220-240V
Frequency	50/60Hz

Key Features

Filtration System	HEPA Filter
Dust Collection	Bagless
Controls	Variable power control knob
Maneuverability	Flexible Hose, Compact Design
