

Compact Ceiling Fan with Three Blades

This compact ceiling fan is designed for circulating air in small spaces. It features a three-blade design with a central motor housing and decorative band.

Product Overview

Compact Cooling Solution

This compact ceiling fan features a streamlined three-blade design, making it an ideal choice for smaller rooms or spaces that require efficient, minimal air circulation. The unit is finished in a clean white tone, complemented by a subtle decorative gold band on the central motor housing. Engineered for both functionality and aesthetic simplicity, it includes a standard downrod and canopy suspension system for reliable installation.
