

Compact Ceramic Space Heater with Adjustable Thermostat

This ceramic space heater offers two heat settings, 750W and 1500W, along with a normal fan mode. It is equipped with a PTC heating element, safety tip-over switch, thermal cut-off protection, and a mechanical thermostat.

Product Overview

Efficient Heating Solution

This compact ceramic space heater utilizes advanced PTC heating technology to provide rapid, reliable warmth for personal spaces. Designed with versatility in mind, it features adjustable thermostat controls, multiple heat settings, and a dedicated fan-only mode for year-round comfort. Built with safety as a priority, the unit includes essential overheat protection and a tip-over switch, making it an ideal choice for offices, bedrooms, and small living areas.
