

Compact Color Monitor with Integrated Speakers

This compact monitor is designed for environments where space is limited. It features a color display for clear visuals and includes integrated speakers for audio output.

Product Overview

Compact Visual Solution

The TDV-1488MF is a versatile, compact color monitor engineered for environments where space is at a premium. Its distinctive retro aesthetic makes it an ideal choice for specialized setups and niche professional applications. Equipped with integrated speakers, it provides a comprehensive audiovisual experience in a single, space-saving unit.
