Product Overview

Compact Crop Reaper

The 4G120A reaper is a highly efficient harvesting machine designed for small to medium-sized agricultural operations. Engineered for versatility, it features a robust engine and a precision cutting mechanism that minimizes stubble height for practical harvesting. Its lightweight, maneuverable design ensures reliable performance across diverse field conditions, including plains, hills, and narrow fields.

Model	4G120A

Performance & Features

Key Features

- Adjustable cutting height
- Low stubble cutting for efficient harvesting
- Durable main structure and high-quality components
- Safe and easy operation
- Simple installation and maintenance

Field Applications

Plains • Hills • Slopes • Narrow fields

Suitable Crops	Rice, Wheat, Alfalfa, Soybean, Forage grass, Rape, Pepper, Corn, Salix integra, Sorghum, Stevia rebaudiana, Chilli, Sesame, Millet
-----------------------	--

Compliance & Standards

Standards

- EN ISO 12100:2010
- EN ISO 4254-7:2009+AC:2010

Certifications	CE, Machinery Directive 2006/42/EC
-----------------------	------------------------------------
