

Compact Dehumidifier with 2.5L Tank

This small dehumidifier removes 10~12L of moisture per day and features a humidistat control. It has a removable 2.5L water tank with a full bucket indicator and a threaded drain hose connection for continuous drainage.

Overview

Compact Dehumidifier Solution

This compact dehumidifier is designed to efficiently remove excess moisture from the air, helping to prevent mold and mildew in home or office environments. It features a user-friendly design with a 2.5L removable water tank and a full bucket indicator for easy maintenance. With a quiet rotary compressor and a convenient carrying handle, this unit offers a portable and effective solution for maintaining optimal humidity levels.
