

Compact Electric Steam Iron with Docking Station

This compact appliance functions as both an electric iron and a steam iron. It features a docking station for convenient storage and includes a non-stick soleplate.

Product Overview

Compact Steam Ironing Solution

This compact electric steam iron is designed for versatility and convenience, making it an excellent choice for both home use and travel. It features a dedicated docking station that ensures organized storage and efficient charging between uses. With a durable non-stick soleplate and dual-mode functionality, it provides reliable performance for various fabric types.
