

Compact Excavator

This compact excavator weighs 1030kg and has a 7.5KW rated power. It features a standard bucket capacity of 0.02m³ and a standard bucket width of 400mm.

Overview

Compact Excavator Efficiency

This compact excavator is engineered for high performance in tight working conditions, offering exceptional maneuverability where larger machinery cannot reach. Its robust design features a durable undercarriage and a precise hydraulic platform system, ensuring reliability across various construction and landscaping projects. The compact footprint and optimized turning radius make it an ideal choice for operations requiring both power and precision.

Dimensions

Overall Length (transport)	2800 mm
Overall Height (transport)	2300 mm
Width of Undercarriage	930 mm
Width of Track	180 mm
Length of Track	1213 mm
Ground Clearance (Undercarriage)	165.5 mm

Performance Metrics

Max Platform Tail Turning Radius

702 mm

Tail Turning Radius

Width of Platform	730 mm
Platform Ground Clearance	422 mm
