

Compact Folding Bicycle

This folding bicycle has a lightweight frame and folds for easy storage. It is equipped with a single-speed drivetrain and linear-pull brakes.

Overview

Compact Folding Bicycle

This compact folding bicycle is designed for urban mobility, offering a practical solution for commuters and those with limited storage space. Featuring a white frame with distinctive orange tires, it combines style with functionality. The inclusion of front and rear fenders, a sprung seat post, and linear-pull brakes ensures a comfortable and safe ride in various conditions.
