

Compact Folding Bicycle for Commuting

This folding bicycle features a compact design, allowing for easy storage and portability. Equipped with a durable frame, responsive brakes, and a comfortable saddle, the bicycle offers a smooth and reliable riding experience.

Overview

Compact Urban Commuter

This 20-inch folding bicycle is engineered for the modern urban commuter, offering a perfect blend of portability and performance. Featuring a lightweight aluminum alloy frame and a reliable Shimano 7-speed drivetrain, it ensures smooth gear transitions and efficient handling in city traffic. Designed for convenience, the foldable frame, fork, and pedals allow for quick storage in tight spaces, making it an ideal solution for multi-modal transportation.
