

Compact Folding Bicycle for Urban Commuting

This compact folding bicycle is designed for urban commuting and easy storage. It features a lightweight frame, adjustable seat post and handlebars, and responsive brakes.

Product Overview

Compact Urban Mobility

This 16-inch folding bicycle is engineered specifically for efficient urban commuting and seamless storage. Featuring a robust steel frame and fork construction, it balances durability with the convenience required for navigating busy city environments. Its compact design allows for easy folding, making it an ideal solution for commuters who need to transition between cycling and public transit or store their bike in tight residential spaces.
