

Compact Food Mixer with Plastic Bowl

This food mixer is a compact kitchen appliance for chopping and mixing food ingredients. It features a transparent plastic bowl and stainless steel blade system.

Overview

Compact and Efficient Mixing

This compact food mixer is designed for efficient chopping and mixing of various kitchen ingredients. Featuring a user-friendly push-button control and a stable base, it ensures safe and reliable operation for daily food preparation tasks. It is an ideal solution for preparing sauces, dips, and finely chopped vegetables in small to medium-sized batches.

Technical Specifications
