Compact Full-Range Loudspeaker

This compact loudspeaker features a conical diaphragm suspended in a metallic frame. It is designed with a voice coil and magnet assembly for electro-acoustic transduction.

Product Overview

Compact Full-Range Audio Solution

This compact full-range loudspeaker is engineered for versatile audio applications where space is at a premium. It features a high-performance conical diaphragm paired with a robust metallic frame, ensuring both durability and clear sound reproduction. Its efficient voice coil and magnet assembly make it an ideal component for professional systems requiring reliable, consistent electro-acoustic transduction.

Technical Specifications

Diaphragm Material	Treated Paper
Driver Configuration	Full-Range
Frame Material	Metal

Certifications & Features

Key Features	Compact Design, Full-Range Response, Electro-Acoustic Transduction
