Overview

Compact Gasoline Powered Garden Tiller

This mini tiller is a versatile and compact agricultural machine specifically engineered for efficient soil preparation and cultivation in small to medium-sized gardens and fields. Powered by a robust gasoline engine, it features adjustable tilling depth and width, allowing users to customize soil conditions for various crop requirements. Its ergonomic design, lightweight frame, and maneuverability make it an essential tool for preparing seedbeds, maintaining vegetable patches, and working in tight spaces.

Technical Specifications

Power Source	Gasoline Engine
Tine Material	Hardened Steel

Features & Safety

Control System

- Throttle Control
- Clutch Adjustment
- Depth Adjustment

Safety Features

Tine Shield, Engine Kill Switch
