Overview

Compact Handheld Garment Steamer

This compact and lightweight handheld garment steamer is designed for efficient wrinkle removal, sterilization, and disinfection of fabrics. Featuring patented secondary atomization technology, it delivers high-temperature, high-pressure steam for professional results at home or while traveling. Its versatile design supports hanging, flat, dry, and steam ironing, making it an essential tool for garment maintenance.

Performance Metrics

Steam Temperature

120 °C

Min Steam Temp

170 °C

Max Steam Temp

Steam Output

15 g/min

Max Steam Pressure

0.5 Bar

Technical Specifications

Soleplate Temperature

130 °C

Water Tank Capacity

105 ML

Features

Key Technologies

- Patented heater and bottom plate separation technology
- Patented secondary atomization technology

Safety Features

Anti-Scalding Technology • Independent Steam Switch

Ironing Modes

Hanging Ironing, Flat Ironing, Dry Ironing, Steam Ironing
