

Compact Household Freezer

This compact freezer is an efficient refrigeration solution designed for household use. It provides ample storage space while maintaining a small footprint.

Product Overview

Compact Household Freezer

The BD/C-170 freezer is a compact and efficient refrigeration solution designed for household use, providing ample storage space while maintaining a small footprint. It features a robust cooling system to ensure consistent temperature and optimal preservation of frozen goods, alongside a user-friendly temperature control and a durable, easy-to-clean interior. Its energy-efficient design helps minimize power consumption, making it an economical choice for long-term use.

Key Features

Primary Application	Household
Design Highlights	Compact Footprint, Energy Efficient, Easy-to-clean Interior

Performance

Cooling Performance	Robust system with consistent temperature control
Model Identifier	BD/C-170
