Overview

Compact Instant Electric Water Heater

This compact series instant electric water heater is engineered for efficiency, minimizing unit size while delivering reliable hot water on demand. Designed for versatility, it supports power ratings from 6kW to 15kW to suit various regional requirements. With an integrated smart control unit, backlit LCD display, and stepless temperature adjustments, it provides a seamless and energy-efficient solution for residential and commercial hot water needs.

Performance & Technical

Key Performance Metrics

35 °C Min Temperature	60 °C Max Temperature	0.8 MPa Max Pressure	2.2 L/min Min Switch-on Flow
---------------------------------	---------------------------------	--------------------------------	--

Technical Specifications

Feature	Specification
Energy Efficiency Class	A
IP Rating	IP24
Max Inlet Temperature	35°C
Min Water Resistivity	e 130@m

Available Power Ratings	8.5kW, 10kW, 12kW, 15kW
-------------------------	-------------------------

Design & Installation

Dimensions	350 x 200 x 120 mm
Unit Weight	2.7 kg
Water Connections	G1/2" or 1/2" NPT

Features

Key Features

- Backlit LCD display for real-time monitoring
- Stepless temperature adjustment (35°C - 60°C)
- Automatic bubble detection
- Smart control unit for stable temperature
- Optional remote control available
