Overview

Compact Precision Engraving

This compact laser engraving machine is designed for precision cutting and etching on a variety of non-metallic materials, including wood, acrylic, and leather. Its small footprint makes it an ideal solution for hobbyists, small businesses, and educational environments. Equipped with a reliable ventilation system and user-friendly controls, it offers high precision for detailed and intricate designs.

40 W

Laser Power

Working Speed

- 0-10 mm/s
- 0-30 mm/s
- 0-50 mm/s

Dimensions & Weight

Weight

Type	Weight
Net Weight	28 kg
Gross Weight	45 kg

Machine Dimensions

800 x 500 x 250 mm

Technical Specifications

Max Engraving Area	300 x 200 mm
Max Stamp Area	200 x 100 mm
Power Supply	AC220/110V ±10%
Operating Temperature	5-35°C
Compatible Software	Moshi, Newly Draw
