

Compact Medical Laboratory Centrifuge

This compact centrifuge is designed for medical and laboratory applications. It operates at a maximum speed of 6000rpm and can hold up to 8 x 1.5ml tubes.

Overview

Compact Laboratory Centrifuge

This compact desktop centrifuge is engineered for efficiency in medical and laboratory environments. Operating at a reliable speed of 6000rpm, it is perfectly suited for quick spin-downs, cell separations, and microfiltration tasks. Its small footprint ensures it fits seamlessly into busy workspaces while maintaining high performance standards.
