Overview

Compact High-Performance Computing

This compact Mini PC is designed to deliver robust performance in a space-saving chassis, making it an ideal solution for home, office, or industrial environments. Powered by an Intel i5-8500 processor, it supports up to 32GB of DDR4 RAM and flexible storage options, ensuring smooth multitasking and reliable operation. With its versatile mounting options and comprehensive I/O connectivity, this unit provides a scalable computing platform for space-constrained workspaces.

Performance

Storage Support

- HDD up to 1TB
- M.2 SSD up to 512GB

Processor	Intel® i5-8500 (6 Cores, up to 4.1GHz)
Graphics	Intel® UHD 630 Graphics
RAM Capacity	32 GB

Connectivity

I/O Interface

Port Type	Quantity
USB 3.0	4
USB 2.0	2
HDMI	1
VGA	1
RJ45 Gigabit LAN	1
Audio (Mic + Speaker)	1

Wireless	2x WIFI Antennas
