Product Overview

Compact Personal Air Purification

This compact air purifier offers a comprehensive, multi-stage filtration system designed for personal environments. Featuring a versatile, split-design architecture, it integrates HEPA filtration, activated carbon, nano photocatalysis, and UV lamp technology to effectively clean the air. With convenient USB charging and a large-capacity battery, it is an ideal solution for small, enclosed spaces such as wardrobes, shoe cabinets, refrigerators, and vehicles.

Filtration Technology

Filtration Stages

- HEPA Filtration
- Granular Activated Carbon
- Nano Photocatalyst
- UV Lamp

Key Features

Usability

USB Rechargeable • One-Touch Control • Split Design

Suitable Applications

Wardrobe, Shoe Cabinet, Car, Refrigerator
