

Compact Personal Electric Heater

This compact electric heater is designed for personal space heating. It features a protective metal grill, multiple heating elements, and a rotating base for even heat distribution, along with safety features like overheat protection and a cool-touch exterior.

Product Overview

Compact Personal Heating Solution

This portable quartz heater is designed for efficient personal space heating in homes and offices. It features three adjustable heat settings to suit various comfort needs and is built with essential safety features, including a tip-over switch. Its lightweight design and integrated top handle make it easy to transport and position wherever warmth is needed.
