

Compact Personal Space Heater

This compact space heater is designed for personal use. It has two heat settings, adjustable via a toggle switch, and a rotary knob to control the temperature.

Overview

Compact Personal Space Heating Solution

This compact and portable space heater is engineered for efficient spot heating in small environments. Built with heavy-duty metal construction and a durable textured powder coating, it ensures longevity and reliable performance. Featuring dual heat settings and a dedicated fan-only mode, it provides customizable comfort alongside essential safety features like tip-over protection and overheat shutoff.
