

Compact Personal Television with AM/FM Radio

This is a compact personal television with an integrated AM/FM radio. It features a built-in antenna, VHF/UHF channels, volume control, and a phone jack.

Product Overview

Compact Entertainment Solution

This compact personal television offers a versatile entertainment experience by combining television viewing with AM/FM radio functionality in one portable unit. Designed for convenience, the device features an integrated antenna for signal reception and intuitive controls for switching between TV and radio modes. It is an ideal solution for users seeking a dedicated, space-saving media device for personal use.
