

Compact Portable Washing Machine

This compact washing machine is designed for small loads, making it suitable for apartments and RVs. It features a built-in timer and drainage hose for easy water removal.

Product Overview

Compact Washing Solution

This portable washing machine is an ideal solution for compact living environments, including apartments, dormitories, and recreational vehicles. Its durable plastic construction ensures longevity while the integrated timer allows for precise control over the wash cycle. Designed for efficiency and convenience, the unit includes a dedicated drainage hose and a transparent tub for easy monitoring of your laundry.
