

Compact Portable Washing Machine

This compact and lightweight washing machine is designed for small loads and limited spaces. It features simple controls for wash and spin cycles, a durable plastic body, and a gravity drain system, making it ideal for apartments, dorms, RVs, and camping.

Overview

Compact Laundry Solution

This 13kg semi-automatic washing machine offers a versatile and space-saving laundry solution ideal for environments where plumbing is limited. Its lightweight design and intuitive controls make it perfect for apartments, dorms, and mobile living situations like RVs or camping. Built with durability in mind, it provides efficient wash and spin cycles for everyday small-to-medium loads.
