Overview

Compact Precision Saw

This compact and powerful mini saw is engineered for precision cutting across a variety of materials. Featuring an ergonomic design for reduced fatigue and a stable base plate, it ensures accurate cuts for both professional applications and detailed craft projects. Its lightweight construction makes it an essential, versatile tool for any workspace requiring fine cutting capabilities.

Technical Specifications

Voltage/Frequency	230V~/50Hz
Power Output	600 W
Speed	4200 rpm
Max Cutting Depth	26 mm
Blade Size	85 mm
Laser Guide	Yes

Included Accessories

Included Components

- 1x TCT blade
- 1x HSS blade
- 1x Diamond blade
- 1x Hex wrench
- 1x Guide
- 1x Dust hose (50cm)
- 1x Dust connector
