

Compact Refrigerator - 48cm Width, Energy Saving

This compact refrigerator is designed for small spaces and energy efficiency. It features a 48cm width, adjustable shelves, and a freezer compartment.

Product Overview

Compact and Efficient Cooling

This 48cm wide compact refrigerator is designed to maximize storage in limited spaces without compromising on performance. Featuring a five-drawer layout, it offers organized, large-capacity storage suitable for various food and beverage needs. Its energy-efficient operation and easy-to-clean removable gasket make it a practical and sustainable choice for professional or residential environments.
