

Compact Single Barrel Washing Machine

This compact washing machine features a single barrel for efficient laundry. It is ideal for small spaces and washing delicate items.

Product Overview

Compact Washing Solution

This compact single-barrel washing machine is engineered for efficiency and convenience, making it an ideal choice for limited living spaces or specialized laundry needs. Featuring a specialized design for motor longevity and a quiet, fanless operation, it ensures a comfortable laundry experience. Integrated safety features, including a grounding device and a spray cover, provide peace of mind while maintaining consistent performance.

Technical Specifications

Washing Capacity	4.5 kg
Rated Voltage	220 V
Rated Frequency	50 Hz
Model Number	XQB45-416

Design Features

Humanized Design

- Spraying cover for safe, even water distribution
- Ultra-low fanless design for quiet operation
- Enhanced motor longevity

Key Features	Quiet Operation, Fanless Design, Grounding Safety, Spraying Cover
