

Compact Step-Through City Bicycle

This compact bicycle has a black frame and a step-through design. It is equipped with Shimano gears, V-brakes, and drop handlebars, making it suitable for urban commuting and recreational riding.

Product Overview

Urban Mobility Redefined

The Compact Step-Through City Bicycle is designed for efficient urban commuting and recreational riding. Its low step-through frame ensures easy mounting and dismounting, while the compact 20-inch wheel size offers agility in crowded city environments. Combining reliable gear shifting with responsive braking, this bike provides a smooth and controlled experience for daily travel.
