Product Overview

Efficient Compact Heating Solution

This compact storage electric water heater is designed for reliable hot water supply in environments where space is at a premium. Featuring adjustable temperature controls, it allows for customization from ambient temperatures up to 75°C. The unit is built for durability and energy efficiency, holding an A-class ERP rating suitable for both residential and commercial applications.

Technical Specifications

Performance Metrics

1500 W

Rated Power Low

2000 W

Rated Power High

0.8 MPa

Rated Pressure

Electrical Requirements

- Voltage: 220-240V
- Frequency: 50Hz/60Hz

Features

Safety & Efficiency

IPX4 Water Proof, ERP A Class, Adjustable Temperature

Temperature Range

Ambient to 75°C
