Compact Tile and Stone Cutting Saw

This compact tile and stone cutting saw is designed for precise cutting of tiles and stone. It features a high-speed motor, diamond-tipped blade, and integrated water cooling system for clean, accurate cuts.

Product Overview

Compact Tile and Stone Cutting Saw

This specialized power tool is designed for precise and efficient cutting of tiles, stone, and similar hard materials. Its compact, portable design ensures easy maneuverability for both professional and DIY applications. Equipped with a high-speed motor and adjustable cutting depth, it delivers accurate results while minimizing dust through integrated cooling features.

Performance Metrics

Input Power

1800 W	5500 r/min
Input Power	No Load Speed

Technical Specifications

Voltage/Frequency	220V-240V/50Hz
Max. Cutting Capacity	38 mm
Max. Blade Diameter	125 mm
Weight	4.5 kg

Applications

Compatible Materials	Ceramic, Porcelain, Marble, Granite
